

# Chicago Area Users Group

A Not-For-Profit Chapter of PLM World, Inc.

*The Voice of Siemens PLM Software Users*

April, 2008

Dear Fellow CAD/CAM User:

The Chicago Area Users Group invites you to join today!

The merger of Unigraphics and I-DEAS, the purchase by Siemens and the growing popularity of Solid Edge have generated much excitement as well as many questions among the users. We have modified our by-laws and changed our name to reflect the broader range of products encompassed by Siemens PLM Software. A new group logo will soon appear, too.

Why be a CAUG Member?

- Keep up with the latest developments in Siemens PLM Software
- Share tips and techniques.
- See how other users and companies solve CAD and CAM issues
- Get inside knowledge of emerging technologies
- Enjoy terrific professional and social networking opportunities
- Make new and lasting friendships
- Contribute your knowledge and expertise to the group

Like all CAUG members, our board members are all Siemens PLM Software users, and make their living knowing their software inside and out. We plan plant tours, technical workshops, software update seminars, and social outings and provide a forum for users to share issues that will ultimately make them more productive. Your annual Company Membership fee of \$50 will ensure that these types of programs will continue throughout the year.

The membership fee helps to offset our costs for mailings, speaker fees, room & equipment rentals, meals, etc. As a member company, all of your users receive priority registration to our many technical programs at a reduced Member Rate.

Feel free to browse our web site, including our current schedule as well as photos and descriptions of our past events at: <http://chicago.plmworld.org>.

If you wish to join us, please fill in and return the enclosed Membership Form and process the Dues Invoice. We look forward to working with you throughout the year.

Sincerely,

John Clauson  
CAUG President
